Instrumentation Frontier Community Meeting

Organized by the Coordinating Panel for Advanced Detectors of the Division of Particles and Fields of the American Physical Society

January 9-11, 2013

Argonne National Laboratory

indico.fnal.gov/event/CPAD2013

This workshop will provide, within the framework of the "Snowmass" Community Summer Study, an evaluation of the Detector R&D program being carried out in support of the High Energy Physics science mission, to determine if the existing program meets the science needs of the Energy, Intensity, and Cosmic Frontiers, and to identify instrumentation opportunities to enhance the program as an enabler of our science.

Local Organizing Committee:

Karen Byrum, Argonne
Marcel Demarteau, Argonne
Zelimir Djurcic, Argonne
Nicole Green, Argonne
Ron Lipton, Fermilab
Ian Shipsey, Purdue
Howard Nicholson, Mount Holyoke
Jon Paley, Argonne
Erik Ramberg, Fermilab
Jennifer Seivwright, Argonne
